EMERGENCY DEPARTMENT MANAGEMENT

- Is your organization trying to meet meaningful use?
- Are there challenges with lost revenue in the ED?
- Is your ED capturing relevant triage information?
- Is tracking patient activity and results a challenge?
- Is there a need to optimize patient flow?
- Are your physicians not using the system?

With years of hands on experience both within the Emergency Department and Information Systems, CPeople will focus on best practice to positively impact the following items:

- Meeting meaningful use
- Improved Patient Throughput
- Streamlined ED Processes
- Medication Reconciliation
- Technology factors to improve user workflow
- Assessments based on Chief Complaints
- Appropriate design for improved ED reimbursement
- Physician Documentation & CPOE
- Integration of data from ED to the In-Patient units

CPEOPLE provides experienced consultants with hospital experience as well as being a Meditech EDM SME. This highly specialized skill set will help insure a successful outcome for your ED project.

Our consultants understand the challenges and complexities of providing safe, affordable, high quality care in today's market. Meaningful Use, patient safety, best practices, efficient workflows, patient tracking, clinical documentation, medication reconciliation, CPOE, physician documentation and will be focal points when we assist you with your ED initiative.
