OPERATING ROOM MANAGEMENT

Scheduling:

Is your case scheduling process meeting your needs and are you able to swap and reschedule cases easily? Are all the resources available for use when necessary?

Preference Cards:

Are your preference and procedure cards overbuilt? Do they lack standardization?

Charges:

Are charges being missed? Is the inventory tracking process difficult?

Documentation (Pre, Intra, Post):

Does documentation accurately reflect your workflow? Are you able to complete it efficiently and effectively?

Are you facing these and other challenges in and around your surgical areas?

CPEOPLE will assist your facility with the implementation or re-engineering of your Operating Room Management application. We take a look at flow of processes within the surgical setting as well as all of the integrated areas (i.e. Scheduling, Pre-Admission Testing, Emergency Department, Pharmacy, Materials Management, Nursing & Medical Records. From there, we scope out a realistic plan to reach the goal defined.

CPEOPLE will provide you a senior level consultant with expertise working in and designing workflow in a busy operating room. As an expert in Meditech, our consultants will help to ensure efficient workflow and a successful implementation utilizing all aspects of the ORM module..

Our team understands the challenges and complexities of providing safe, affordable, high quality care in today's market. Patient safety, best practices and efficient workflows will be focal points when we assist you with your ORM Application.
