IMPROVING CLINICAL DOCUMENTATION AT YOUR ORGANIZATION

- Are clinicians charting electronically and on paper?
- Are you dealing with redundancy and too many questions on your forms?
- Are Nurses playing catch up with their charting after their shift is over
- Does your documentation reflect your organization's charting methodology?
- Is there a lack of standardization within your system
- Is it time for a re-build?

If you answered yes to any of these questions, it's time for a change!

With external driving forces such as ARRA, CMS, JCAHO and the FDA, electronic documentation has an even greater impact on the future of healthcare.

CPEOPLE will help your facility with these and other challenges your organization may face. Our team understands the challenges and complexities of providing safe, affordable, high quality care in today's market. Patient safety, best practices and efficient workflows will be focal points when we assist you with your clinical documentation applications. This will be accomplished by providing your facility with our proven efficient clinical documentation system model.

CPEOPLE will provide you a consultant with real clinical experience working in hospitals as well as being an expert in utilizing Meditech's PCS or NUR applications. This highly specialized skill set will help insure a successful outcome for your project.
